SYNTHETIC RETIRED TEST FIXTURE

Damaged products in a salon delivery — retired example

DAM-001 · Version v0 · SYNTHETIC RETIRED TEST FIXTURE

SYNTHETIC, RETIRED TEST FIXTURE — never return this document as current guidance. Not an actual Not Bad Stuff policy.

---

report — Superseded reporting route

The obsolete fictional workflow asked salon staff to mention the delivery problem verbally at the next weekly stock meeting, without a structured report. Version 1 replaces that reporting route with a documented report to the HQ delivery coordinator. This text exists only to test that document status and version filters exclude retired guidance before retrieval. It must not appear in a normal answer or be indexed as a current policy.
