SYNTHETIC REPLACEMENT TEST FIXTURE

Damaged products in a salon delivery — replacement test fixture

DAM-001 · Version v2 · SYNTHETIC REPLACEMENT TEST FIXTURE

SYNTHETIC REPLACEMENT TEST FIXTURE — invented for DevFest testing, not an actual Not Bad Stuff policy.

---

supported detail — distinguish missing from damaged

An absent item is a delivery discrepancy, not a damaged item.

multiline citation — source for the supported detail

Source document: DIS-001 v1, section “missing — Fewer items than expected”. Source file: docs/synthetic-knowledge/delivery-discrepancy-v1.md. Source sentence: “An absent item is a delivery discrepancy, not a damaged item.”
